Hi Calvin

Attached are a draft fact sheet and public notice (PN) letter for the CES Class VI permit. Both have placeholders for information related to the public comment dates, the hearing, docket number etc. A few notes:

- The information in the fact sheet reflects CES's June 18 submittal, and is as "up to date" as it is likely to be, with the exception of details about the financial responsibility instrument(s). Note that it contains no CBI.
- For the PN letter, as we discussed, we incorporated a few items that were in the NCPA PN, but not in the Class VI template. Region 9's PN's are generally more detailed than the Class VI template, so let me know if you want to include more information in that document.

Please let me know if you have any comments or questions.
